REMARKS

25X1X

1. On 2 February 1951, about 100 new 3-ton trucks were lined up in the yard of the Artillerie Kaserne, Kuestein-Kietz (O 53/V 66). Sixteen of the trucks had a T-shaped superstructure. \*
2. Four AA guns of about 20 mm caliber were emplaced on each bank of the Oder River near the bridge. The gun crews were accommodated in earth shelters by the guns. \*\*

25X1A \*                      For a sketch of the T-shaped superstructures, see Annex. The superstructures, which were reported for the first time, may have been mounts for twin-barreled AA machine guns.

25X1A\*\*                      Another source reported only one emplacement of AA guns just northwest of the barracks installation on the Oder River island in early January 1951.                      25X1A

1 Annex: One sketch on ditto.
